ELAF 2010

ELAF 2010 Activity Program

Wednesday July 28

9:00-10:00	**The Dirac (Moshinsky) oscillator: Theory and Applications** Emerson Sadurní
10:00-11:00	**Dynamical invariants in systems with and without broken time-reversal symmetry** Dieter Schuch
11:00-11:30	**Coffee**
11:30-12:30	**Application of time dependent quantum mechanics to atomic and mesoscopic systems** Tobias Kramer
12:30-13:30	**Dynamical symmetries in the probability representation of quantum mechanics** Vladimir Man´ko
13:30-15:00	**Lunch**
15:00-16:00	**Quantum transients in tunneling phenomena** Gastón García-Calderón
16:00-17:00	**Single Molecule Magnets** Jorge G. Hirsch
17:00-17:30	**Coffee**
17:30-18:30	**POSTERS**

In Memory of Marcos Moshinsky
